Dear Rick,

The summer season is upon us! Predator Games encourages everyone to take advantage of the sunlight and get everyone you know to try a game of paintball laser tag. They'll enjoy the activity and will quickly be back for more.

We have some great updates for you so read on!

The Brand New Predatorgames.net

Have you been to www.PredatorGames.net lately? If so, you instantly noticed the exciting layout and visual changes. If not, you need to head to the site right away to see what you have been missing out on.

PredatorGames.net is a great place for many things. You can find critical help documents and downloads for most problems. The world wide player ranking system is also available. When it's time to get serious, complete your personal profile and track your statistics as you play paintball laser tag.

If you are playing paintball laser tag via the CCM and are running tournament games to keep track of stats, be sure to upload them. Players want to know where their skills stand in the world and will be back for more in their quest to be the best.
